

Element Name:

Drigai Toluni : The Kalasha system of units for the measurement of length, width and height .
Drigai – (length) and Toluni – (unit or something to measure with)

Community (ies) Concerned:

Drigai Toluni is used in all three Kalasha valleys i.e. Bumburet, Rumbur and Birir ,by Kalasha as well as Muslim community. Although people involved in the business of construction and carpentry frequently employ the system of Drigai Toluni, however the system is also used by the general community i.e. Kalasha and Muslim, in their daily lives.
